

I'm not robot!

The thread pen of thread of scarf thread thread thread for the brother Nähmaschinen is a complete offer of accessories compared to many other devices in this price range, especially with noise. The reduced Fußpedal is also included. When operating the pedal, the user clearly realizes how easy and convenient the handling with the brother Nähmaster is. Finally, but not least, the usual and attractive illustrated operating instructions support the training process with the machine, so that the first attempts are generally possible without any problem. Team and operation of Brother Innov-IS 10A The Marina machine is equipped with a large rotary control on the healing front, which can easily be of all noise programs. The stitch width and stab wounds can be electronically set in the contrast and visible visualization of Brother Innov-IS 10, so that the user has the recent configuration at any time. If necessary, the configuration can be carried out very steep, which in particular benefits from the following. Another notable feature of Brother Nähmaschine is a particularly light LED light, which is attached to the Nähfuß. It ensures excellent work area lighting and also offers a much higher life expectancy than Hermit. This means that future Näh projects can be done optimally even in poor lighting. With only 16 Näh programs or functions, the number of Näh programs on this device is relatively overlapping, because other models in this price range are often equipped with significantly more programs. Unfortunately, an overlock palette cannot be made with this device. Brother has placed himself completely in a high spaek factor in the innovative 10th anniversary Nähmaschine, which is subordinate to intuitive oability. Therefore, it is not necessary that dozens of Näh programs be available. due to simple handling and high level of ease of use, this aspect is not a real deficiency. the simple blocking of no one is another characteristic of the brother model. during other models of the input level class, noise can only be prevented by the previous manual and backing, enjoy a single presentation of a button on the machine to automatically comply with a 3-fold lock. Brother Nähmaster Innov-IS 10 anniversary deposit programs: 16 notes: booty, feminine fusible, rice block, Nähfuß, blind seams, type of button companion: free navigation machine / user stitch + handful width individual steps (on the screen) sinking the technical characteristics of the carrier of seven points of the anniversary of the 10th innovative in the preparation of the AS soon as the high quality navigation machine is ready for use, you get the following equipment: lech lamp for optimal illumination of the seven-point transport work area ensures a uniform fabric paper even with heavy materials 16 stitches, 3 eyelet programs, LCD-Display Snap-On system to easily change the 10th anniversary Näh-Speed & Store trains.
